Dmytro Hoi
Python Developer

E-mail: me@dmytrohoi.com
LinkedIn: dmytrohoi
Telegram: @dmytrohoi
Site: dmytrohoi.com

SUMMARY:

  I have been programming in Python for over two years. I worked on the following projects: the custom test framework on Python based on Appium for medical embedded project (real medical device); big Telegram bots; sites parsing scripts on Python/JS with Regex; console scripts on .sh (site deploying, environment setup and etc); contribution to open-source projects on GitHub (python-telegram-bot, aiogram); plugins and a plugin loader for the famous game; personal site based on ReactJS.
  My personal projects are collected in dmytrohoi.com/#projects.
  Additional programming languages are: Javascript, sh, Ruby and Go (learning in progress). I finished studying Systems Analysis, including machine learning.

SKILLS:

- Languages: Python, JavaScript, Ruby, sh, Go (learning in progress).
- Libraries/Frameworks: pytest, appium, python-telegram-bot/aiogram, Django, Flask, SQLAlchemy/Gino, requests, tkinter, Jupyter, Pelican
- IDE/Code Editors: VSCode**, VIM
- English-level: Intermediate
- OS: Ubuntu, Arch, Windows
- Tools: Git, SVN, adb, cron, Docker, venv/pipenv
- Other: zsh, HTML/CSS, SQL, Regex, GitHub, sr.ht

Details on my site: dmytrohoi.com

ADDITIONALS SKILLS:

- Initiative and pro-active
- Public speaking skill
- Process automation loving
- Writing articles (habr.com/users/dmytrohoi | dev.to/dmytrohoi | higaindev.ml)
- SMM, PR, Poems writing

- [pelican-qsb](#) - a tool for quickly building Pelican-based websites ([PyPI](#))
- [hi gain dev](#) - personal programming blog
- [freelancehunt-api](#) - framework for public API ([PyPI](#))
- [pyplugins](#) - plugin loader for the famous game (2 plugins based on it)
- freelance projects: Telegram Bots and programs with a GUI

WORK EXPERIENCE:

Company: GlobalLogic
Position: Python Developer in Test / AQA (05/2019 - now)
Info: Implementation of the custom test framework for the embedded device on Android Pie (using Python, Appium, ADB, and pytest)

Company: Microbilt
Position: Site Scraping Script Developer (07/2018 - 05/2019)
Info: programming with Regex and SQL, Python and Javascript automation scripting

Company: National University of Radioelectronics
Position: Senior Assistant (06/2016 - 05/2017)
Info: Quality Assurance Department. ISO 9001 certification. Creation and updating of an internal quality assurance system.

EDUCATION:

Kharkiv National University of Radioelectronics
- Bachelor (2014 - 2018)
 Electronics - "Electronics devices and systems"

- Master (2018 - 2019)
 System Analysis - "Consolidated information"
